Re: Potential LEED v4 credits for projects using 3M 8100 Coiled Vinyl Matting by Amarco Products

To whom it may concern:

Many finishing products have the potential to contribute points to LEED v4, however the credits can only be gained when calculating the combined performance of all the products used on a particular LEED project; therefore no single product can guarantee you will obtain LEED v4 credits.

The LEED v4 rating system promotes improved practices in the following credit categories:

- Location & Transportation
- Sustainable Sites
- Water Efficiency
- Energy & Atmosphere
- Materials & Resources
- Indoor Environmental

3M 8100 Coiled Vinyl Matting by Amarco Productsmay contribute to the following LEED credits (points), the following is based on LEED NCv4:

- v4 EQc1: Indoor Environmental Quality – Enhanced indoor air quality strategies:
  - Option 1. Enhanced IAQ strategies. Installed with at least 10 feet (3 meters) in length in the primary direction and maintained on a weekly basis.

If you require any further information, please do not hesitate to contact us.

Sincerely,
Amarco Products
