

Re: Potential LEED v3 credits for projects using Arena Tile 1/2" Linear Pattern Commercial Walk-Off Tile by Amarco Products

To whom it may concern:

Many finishing products have the potential to contribute points to LEED v4, however the credits can only be gained when calculating the combined performance of all the products used on a particular LEED project; therefore no single product can guarantee you will obtain LEED v3 credits.

The LEED v3 rating system promotes improved practices in the following credit categories:

- Location & Transportation
- Sustainable Sites
- Water Efficiency
- Energy & Atmosphere
- Materials & Resources
- Indoor Environmental

Amarco Products' Arena Tile 1/2" Linear Pattern Commercial Walk-Off Tile may contribute to the following LEED credits (points), the following is based on LEED NCv3:

- v3 MR Credit 4 - 20% recycled content
- v3 IEQ Credit 4.1 – Releasable VOC 0 g/L
- v3 IEQ Credit 4.3 – CRI Green Label Plus certified
- v3 IEQ Credit 5 – semipermanent installation
