

Re: Potential LEED credits for Brush-Coir Vinyl-Backed Coco Mat by Amarco Products.

To whom it may concern:

Many finishing products have the potential to contribute points to LEED v3, however the credits can only be gained when calculating the combined performance of all the products used on a particular LEED project; therefore no single product can guarantee you will obtain LEED v3 credits.

The LEED v3 rating system promotes improved practices in the following credit categories:

- Location & Transportation
- Sustainable Sites
- Water Efficiency
- Energy & Atmosphere
- Materials & Resources
- Indoor Environmental

Amarco Products' Brush-Coir may contribute to the following LEED credits (points), the following is based on LEED NCv3:

MR Credit 6	LEED-NC v3	50% recycled content
IEQ Credit 5	LEED-NC v3 for 1 point: semi-permanently installed entrance system at least 10' in length and maintained on a weekly basis	Brush-Coir is designed for semi-permanent installation
