

Re: Potential LEED credits for Defender 3/8" Ribbed Commercial Entrance Matting by Amarco Products.

To whom it may concern:

Many finishing products have the potential to contribute points to LEED, however the credits can only be gained when calculating the combined performance of all the products used on a particular LEED project; therefore no single product can guarantee you will obtain LEED credits.

The LEED rating system promotes improved practices in the following credit categories:

- Location & Transportation
- Sustainable Sites
- Water Efficiency
- Energy & Atmosphere
- Materials & Resources
- Indoor Environmental

Amarco Products' Defender may contribute to the following LEED credits (points), the following is based on LEED NCv3:

MR Credit 4	LEED-NC v3 For 1-2 points: \$ value of all	52.05% post-consumer recycled content
IEQ Credit 4.1	LEED-NC v3 For 1 point: low-emitting adhesive with a VOC of 50 g/L or less for indoor releasable carpet adhesive	Releasable VOC 0 g/L
IEQ Credit 4.3	LEED-NC v3 For 1 point: low-emitting materials	Defender is Green Label Plus certified
IEQ Credit 5	LEED-NC v3 for 1 point: semi-permanently installed entrance system at least 10' in length and maintained on a weekly basis	This carpet is a semi-permanent installation
