**General Warranty** – Amarco Products warrants these products to be free from defects in material and workmanship at the time of shipment. However, the warranty does not cover commercial shade variations or product with visual defects after such product has been installed, altered, cut, damaged, soiled or otherwise have become unsaleable. These products are only suitable for residential and light commercial applications, and therefore no warranty is extended for the use of the products on stairs, in pivot points or areas in athletic playing areas, for reinstalled product, or for any product that is not properly glued down. Note that yarn striations and weave irregularities are common in natural fibers and are not considered a defect.

All spills should receive immediate attention in order to prevent a "set stain". If in doubt as to the type of cleaning agent to use, contact a professional cleaner. Test your cleaning agent on a small, inconspicuous area of the carpet for color fastness. Always work your way from the edge of the stain towards the center as to not spread the stain. Blot the moist area. Do not scrub the pile surface when doing an overall cleaning. The amount of the mechanical agitation must be taken into consideration. Therefore, we strongly recommend the use of "suction only" vacuuming. Brushes and/or beater-bars may create excessive fuzzing, pilling, and distort or damage the surface pile.

Except as noted herein, there is no warranty or merchantability or fitness for a particular purpose or any other warranties by Amarco Products, either expressed or implied, or any affirmation of fact or representation which extends beyond the description contained herein.
