

Re: Potential LEED credits for Striation-Tile 9/32" Tufted Loop Pile Commercial Carpet Tile by Amarco Products.

To whom it may concern:

Many finishing products have the potential to contribute points to LEED v4, however the credits can only be gained when calculating the combined performance of all the products used on a particular LEED project; therefore no single product can guarantee you will obtain LEED v4 credits.

The LEED v4 rating system promotes improved practices in the following credit categories:

- Location & Transportation
- Sustainable Sites
- Water Efficiency
- Energy & Atmosphere
- Materials & Resources
- Indoor Environmental

Amarco Products' Striation-Tile may contribute to the following LEED credits the following is based on LEED NCv4:

MRp2	LEED v4 Material and Resources – Construction and demolition waste management planning	The tiles or planks reduce waste from the installation process, reducing waste in landfills. Made from recyclable material and/or is a reusable product, reducing waste in landfills
MRC3	LEED v4 Materials and Resources – Building product disclosure and optimization, sourcing of raw materials:	Option 2. Sourcing of raw materials. Recycled content. Primary recycled PET content is 100% postconsumer and Secondary bitumen with 10% pre-consumer.
EQc1	LEED v4 Indoor Environmental Quality – Enhanced indoor air quality strategies	Option 1. Enhanced IAQ strategies. Installed with at least 10 feet (3 meters) in length in the primary direction and maintained on a weekly basis.
EQc2	LEED v4 Indoor Environmental Quality – Low emitting materials	Option 1 (Adhesives). Verified third-party FloorScore certificate for Amarco Adhesive is available. Option 2. Budget Calculation Method.
