

Re: Potential LEED credits for Syn-Coir Synthetic Coco Fiber Entrance Matting by Amarco Products.

To whom it may concern:

Many finishing products have the potential to contribute points to LEED v3, however the credits can only be gained when calculating the combined performance of all the products used on a particular LEED project; therefore no single product can guarantee you will obtain LEED v3 credits.

The LEED v3 rating system promotes improved practices in the following credit categories:

- Location & Transportation
- Sustainable Sites
- Water Efficiency
- Energy & Atmosphere
- Materials & Resources
- Indoor Environmental

Amarco Products' Syn-Coir may contribute to the following LEED credits (points), the following is based on LEED NCv3:

|                |  |  |
|----------------|--|--|
| MR Credit 4    | LEED-NC v3<br>For 1-2 points: \$ value of all  | 20% recycled content                         |
| IEQ Credit 4.1 | LEED-NC v3<br>For 1 point: low-emitting adhesive with a VOC of 50 g/L or less for indoor releasable carpet adhesive        | Releasable VOC 0 g/L                         |
| IEQ Credit 4.3 | LEED-NC v3<br>For 1 point: Low-emitting materials – Flooring systems   | CRI Green Label Plus Certified               |
| IEQ Credit 5   | LEED-NC v3 for 1 point: semi-permanently installed entrance system at least 10' in length and maintained on a weekly basis | This carpet is a semi-permanent installation |
